

Shailendra Sahasrabudhe Named Promisec Vice President of Sales for India and Southeast Asia

New York, NY – April 21, 2010: Clientless [Endpoint Management](#) software vendor Promisec, Inc. has named Shailendra Sahasrabudhe as its Vice President of Sales for India and Southeast Asia. As VP of Sales, Sahasrabudhe will have responsibility for Promisec's deployments in the Far East and for increasing the company's presence in large enterprises and Managed Service Providers (MSP).

"Shailendra is a major force in bringing new security technologies into India, and we are pleased to have him on our team," said Hilik Kotler, Promisec EVP, Business Development and Co-Founder. "In Shailendra, we found someone with superb business skills as well as cross-cultural relationships and capabilities. His relationships and proximity to the large-scale and global MSPs provide the opportunity to provide top-notch solutions and service to these organizations."

Sahasrabudhe previously served as the country manager for Aladdin Knowledge Systems, for F5 Systems, and for Teledata Singapore.

"It is obvious that for large-scale enterprises and MSPs, the only way to manage endpoints is through a clientless solution," said Sahasrabudhe. "In terms of geography and size, Indian enterprises require implementations that are easy to deploy, easy to manage and cover both large numbers and long distances elegantly. Promisec is able to deliver that kind of solution."

Promisec clientless software solutions introduce unprecedented visibility, speed, accuracy and simplicity to IT endpoint management. With Promisec, CIOs and CISOs can easily monitor and enforce Security, Inventory and Green IT compliance. Today, limited budgets and increasing threats compel organizations to find innovative ways to do more with less.
